SUMMARY

Dependable and motivated Computer Science graduate from Utica University with strong programming, problem-solving, and teamwork skills. Experienced in office operations, project coordination, and professional communication through internships and on-campus employment.

EDUCATION

B.S. in Computer Science, September 2026 – Utica University, Utica, NY

- GPA: 3.1 | Dean's List & Merit Award
- Relevant Coursework: Programming & Software Development, Data Structures & Algorithms, Object-Oriented Programming, Operating Systems, Databases, Computer Organization, Discrete Mathematics, Media & Game Development

TECHNICAL EXPERIENCE

1. Scaling Memcached with RCS & Cache Transaction Integrity, CCSCNE 2025, Poster Presenter.

- Researched Memcached performance, implemented fallback-based RCS; improved recovery speed by 1.6x–2.1x. Presented findings on distributed systems resilience.
- Technologies: Memcached, Distributed Caching, Performance Testing

2. ConnectPlus – Full-Stack Web Application

- Developed collaboration and project management platform with secure authentication, task tracking, and alerts.
- Technologies: MongoDB, Express.js, React.js, Node.js (MERN Stack)

3. Food Expiration Tracking App (In Progress)

- Mobile app to track household food, reduce waste, and generate automated grocery lists.
- Technologies: Mobile Development, UI/UX, Data Storage

4. Flight Scheduling Optimization

- C++ program for shortest-path flight calculations using Dijkstra's Algorithm with OpenMP parallelization.
- Technologies: C++, OpenMP, Graph Structures

PROFESSIONAL EXPERIENCE

Jan 2023 – May 2026

Slice Office, Utica University – Operations Coordinator & Office Assistant

Managed move-in/out, room condition reports, and student support. Conducted residence hall rounds and resolved facility issues.

Jul 2023 – Aug 2023

Fearless Queen, Syracuse, NY – Intern Assistant

Assisted in organizing Queen Street Expo, digital design, and sponsor communication

Jul 2024 – Aug 2024

Lekia Tech LLC, Syracuse, NY – Intern Assistant

Supported web seminars, design, coding, and data analysis for workshops and platforms

Jul 2025 – Aug 2025

Onpoint for College, Syracuse, NY – Intern Assistant

Assisted in freshman orientation, FAFSA/NYS TAP support, and workshops

July 2026 – Aug 2026

Cavline Co., Syracuse, NY – Front-end Developer Intern

Developed a centralized communication and onboarding dashboard used to organize business outreach, screen onboarding, data collection, team tasks, and progress tracking.

Integrated Google maps/places APIs to identify local businesses with potential digital screen opportunities and support business outreach.

Developed a route-planning workflow that organized business stops by geographic coordinates, allowing team members to navigate assigned outreach locations efficiently.

Created business tracking functionality for contact information, outreach notes, follow-up dates, onboarding status, and business progress, allowing team members to share and access updated information.

Implemented weekly and monthly goal tracking for screen acquisition campaigns, completed businesses, and onboarding progress.

Collaborated with team members to develop features based on operational needs and improve the dashboard as a central hub for team communication and organization.

CONFERENCE

1. CCSCNE 2026, Smith College, MA, Apr 2026

- Presenting paper in the upcoming conference titled: ConnectPlus: A Demonstration of a Full-Stack Collaboration Tool for Academic and Team Projects

2. NYCWiC, Albany, Apr 2026

- Conducting working for full stack development titled: Full-Stack Demonstration

3. CCS NE 2025, SUNY Brockport, NY, Apr 2025

- Poster presenter; received feedback and strengthened public speaking skills.

4. NYCWiC for Women in Computing, Lake George, NY, Apr 2023

- Selected attendee; participated in workshops, networking, and professional talks.

TECHNICAL SKILLS

- Programming: Python, Java, C++, HTML, CSS, java Script, React
- Tools: Windows OS, GitHub, Adobe, Canva, Figma, MongoDB, Node.js, Express, Bootstrap, Vite, Verel
- Concepts: Data Structures, Algorithms, Object-Oriented Programming, Computer Hardware & Software
